From The Principal's Desk

Let us make our future now and let us make our dreams tomorrow's reality. With this positive thought we are really proud and exuberant to acclaim that we are ready with all new hopes and hues to bring out the second part of 2021-22 school newsletter.

The newsletter not only reflects children's co-curricular and creative skills but their dreams and aspirations to excel high in every field. Kendriya Vidyalaya has history of creating geniuses and here are few in making.....

My greetings and best wishes for the administrative staff as well as teachers and students of the Kendriya Vidyalaya family in their mission of promoting value based holistic education in our society.

Vice Principal's Message

"Your attitude, not your aptitude will determine your altitude."

– Zig Ziglar

The month of March marks the end of yet another academic session with students taking their Annual Examinations.

The children today face multifarious challenges which are very different from what we encountered in our growing up years.

The purpose of education is to make good human beings with skills and expertise. Able guidance by teachers, attention by parents and hard work by students will collectively make the process of learning enjoyable and easier. As a school, we constantly motivate our students to challenge their own selves and push their boundaries. As the saying by Debasish Mridha goes -

"If you compete with others, you may not win. If you compete with yourself, you always win by becoming better". At last, I do sincerely hope that the dark days of Covid-19 which have time and again forced the children to be away from the beautiful campus, are now over and the Academic Session 2022-23 will be completely free from the black clouds of the pandemic and physical classes will continue uninterruptedly.

H. M. Message

It gives me immense pleasure to welcome you all in the second part of newsletter for the session 2021-22. I would like to take this opportunity, to appeal to all the parents, to set higher standards for their children as it's said that parents are a child's first teachers and role models. They are responsible for shaping up the child's behaviour and instilling positive values in them. To raise well behaved and responsible children, parents should be willing to invest a considerable amount of time, patience and energy. Instilling and inculcating good values in a child will in future make him/her a good person and a better citizen. Be intensely involved in all the home learning activities of your child. Guide your child at home, encourage them to practice reading at home, guide TV watching and provide stimulating experiences to contribute to student achievement.

While there are many reasons to celebrate our success, we look forward to the challenges ahead.

With the able guidance of our respected Principal Sir and co-operation of the parents and my primary wing staff we shall touch new heights of glory in the Academic Session 2022-23 and march ahead by leaps and bounds with service before self, being our watch word.
